# How do I change the colour scheme of my website

WEBSITE / DESIGN OPTIONS / *FONTS & COLOURS* / **Edit**

Please Note: If your Organisation has a site that was custom designed by SportsTG's Design Team, please do <u>not</u> make any changes within this area. Please, instead, contact your Account Manager who will be able to assist in making changes to your website.

To make changes to your Website's Colour Scheme, you can do this by going into the **WEBSITE** area of the console and clicking on **DESIGN OPTIONS**. You can then select *FONTS & COLOURS* from the Left Menu and this will display your current settings. To make changes, click on the **Edit** button.

You can then choose from the five tabs to update your Colour Scheme:

Font Options: will amend the Colour and Style of the Fonts on your Website.

Main Menu: will amend the colours in your Main Menu.

| Font Options | Main Menu | Top Menu | Data Entry | Other Options |

Font Size (%): `0`
