Uploading Documents

Last Modified on 19/08/2016 9:57 am AEST

This article relates to Site 1.0

Uploading a PDF and other document types enables you to create hyperlinks and refer your users to external documents. This feature can be used throughout all modules in the SportsTG console.

Quick Steps: Go to **WEBSITE / DOCUMENTS / DOCUMENT TYPES / ADD A DOCUMENT TYPE / LISTING / ADD A DOCUMENT**

Click here to find out how to upload a document type or how to hyperlink a document within the SportsTG system.

Note: Instead of selecting **TOOLS** from the main menu, select **WEBSITE**.

Inserting a hyperlink enables you to refer your users to external documents containing further information or diagrams.
