

# What is a Club Directory?

*Last Modified on 19/08/2016 10:05 am AEST*

*This article relates to Site 1.0*

At a national or state level, the **CLUB DIRECTORY** lists club contact details, e.g. URL, phone numbers, address. This is pulled from the **ADMINISTRATION** area of the console.

At a club level, this feature allows a club to write a summary about their club which will display on this clubs listing. There is also a **NO** option for a club to not appear in this list.

The benefit of the **CLUB DIRECTORY** is that all details can be administered and kept up to date by the club and therefore requires no input from the state level.
