

Editing a Listed Item

Last Modified on 05/10/2016 4:52 pm AEDT

You can change all details of an auction item once it is live, except the images. Once an item is live the images cannot be changed, however you can delete an item up until it receives its first bid.

Quick Steps: Go to **Auction > Listings > Edit**

Editing a Listed Item:

1. Within the Management Console, select **Auction** from the top menu, then **Listings** from the left menu.
2. Find the item that you wish to edit.
3. Click **Edit** next to the item's name.

When editing auction items, you can make changes to any details except for the images. You also have the ability to remove items up until the point that they receive their first bid.
