9. Adjusting the Settings for the Competition

Last Modified on 23/08/2016 12:45 pm AEST

Once a competition has been created, some of the general competition options are fixed and cannot be edited. There is however the option to edit other settings for an individual competition if necessary.

Quick Steps: Competitions > Competition > Options

1. Within the Management Console, select **Competitions** from the top menu, then select the relevant **Competition** from the list.

2. Select **Options** from the left side menu and then edit the field as required followed by clicking **Save**.

General

Edit the basic information of the competition including the title, gender, age group, if their is a finals series and mobile responsiveness.

Fixture

Within this tab you can set the number of teams and round in the competition followed by the days of play and default start time for competition fixtures.

Points Allocation

Enables you to edit the points allocated to teams in competition ladders based on fixture results. Please note: if point allocations are changed mid-season, points for match results already entered into the system will not be updated. This will only affect point for future results.

Results

Allows you to edit the allowed time frame for clubs to enter their results following their fixture.

Results

Change the order of criteria that teams are ranked by on the competition ladder.

Ladder

Alter the information provided to members when viewing the competition ladder.
