

Adding a Round to a Competition

Last Modified on 28/10/2016 10:38 am AEDT

Creating Rounds allows you to add in rounds individually to then create fixtures. This allows administrators the option to create fixtures manually instead of generating fixtures automatically through the Management Console.

Quick Steps: Go to Competitions > Select relevant competition > Rounds > Add > Complete all relevant fields and click Save

1. Within One Sport Technology, select **Competitions** from the top menu.
2. Select relevant competition and select **ROUNDS** from the expanded left menu.
3. Click **Actions**, then **Add** to add a round manually.

At this point you can also select **Generate Fixture** to create an automated fixture, or **Generate Finals**.

4. Give the Round a Round Name, Date and Round Type.
5. Once all fields are completed, click **Save**. Repeat these steps to create all rounds for your competition

Please Note: Fixtures cannot be generated unless Rounds have been set for the competition

The screenshot shows the 'Add Round' form for the '2015 MALE ASSOCIATION WINTER LEAGUE'. The form is divided into two tabs: 'General' and 'Round Order'. The 'General' tab is active, showing the following fields:

Field	Value
Name *	9
Start Date *	28 Oct 2016
Round Type *	Please select...
Publish Fixtures	<input checked="" type="radio"/> No <input type="radio"/> Yes
Publish Results	<input checked="" type="radio"/> No <input type="radio"/> Yes
Update Fixtures	<input checked="" type="radio"/> No <input type="radio"/> Yes

At the bottom of the form, there are 'Save' and 'Cancel' buttons.
