

Adding Gift Voucher functionality

Last Modified on 21/10/2016 3:55 pm AEDT

Quick Steps: Shop > Shop Settings > Options > Shop Settings > Gift Vouchers > Edit

- **Enabled:** Turn on the Gift Voucher function
- **Title:** The gift voucher title is the title you use to describe this functionality, for example it could be called “gift voucher”
- **RMS Code:** Only applicable if using RMS
- **Email Thumbnail Image:** Is the image displayed in the kart at checkout. Can be your club logo.
- **Summary:** Will appear on the front-end shop above the area that a customer puts their recipient’s information. You can insert any text and imagery you would like into this area, for example a specific Gift Voucher banner. This is via the same formatting process as editing the home page.
- **Terms and conditions:** The “Gift Voucher Terms” display on the front-end to the user purchasing the gift voucher. The customer must accept these terms and conditions
- **Template:** Is the email template sent to the recipient of the Gift Voucher, it must contain the following merge fields:
 - GIFTVOUCHERTITLE - the title of the gift voucher
 - RECIPIENTNAME - the name of the recipient
 - PERSONALMESSAGE - the personal message written by the buyer to the recipient when purchasing
 - GIFTVOUCHERVALUE - the value of the gift voucher
 - SERIAL - the serial number of the gift voucher
 - PASSWORD - the password of the gift voucher
 - SHOPLINK - links the recipient to the online store

You are able to fully customise the look and feel of your gift voucher with any text and imagery you like.
