

Restarting an Email Campaign

Last Modified on 29/08/2016 4:52 pm AEST

Quick Steps: Tools > Email Databases > Restart Campaign > Select Campaign > Restart

The ability to restart a campaign to an email database is available by using the Restate Campaign function.

1. Go to **Tools**, and select **Email Databases**
2. From the expanded left hand menu, select **Restart Campaign**
3. Select the relevant **Email Database** that the campaign had been previously generated for, and click **Next**
4. Click on **Restart** to resend the campaign
