

Instructions for modifying DNS records

Last Modified on 01/08/2017 3:55 pm AEST

Below are links to instructions from commonly used DNS providers for changing their TXT records. If you have a different host, they may have their own instructions, or one of examples below may be similar.

Commonly used domain hosting software:

- [Plesk-based management](#)
- [cPanel-based management](#)

Commonly used DNS providers:

- [Netrigistry](#)
- [DNS Made Easy](#)
- [DNSimple](#)
- [Dreamhost: DKIM information + How do I add custom DNS records?](#)
- [GoDaddy](#)
- [Hostgator](#)
- [Hover](#)
- [Media Temple](#)
- [Melbourne IT](#)
- [Namecheap](#)
- [Network Solutions](#)
- [Register.com](#)
