

Removing a Subscription Category from Display

Last Modified on 17/10/2016 3:26 pm AEDT

Quick Steps: Membership > Subscriptions > Subscription Categories > Click on the Tick (Active) symbol

1. In One Sport Technology, select **Membership** from the top menu.
2. Select **Subscriptions** on the left menu then **Subscription Categories**
3. Click on the Tick Symbol against the Subscription Category. This will automatically update to a cross symbol, indicating the subscription type is no longer active.

The screenshot shows the SportsTG interface. The top navigation bar includes icons for Membership, Events, Shop, Competitions, Utilities, Administration, and Support. The left sidebar shows a navigation menu with 'Subscription' selected. The main content area is titled 'Subscription Category Listing' and contains a table with the following data:

Title	Status	Actions
Gold Members	✓	Actions
Bronze Category	✓	Actions
Silver Category	✗	Actions

The table also includes a search bar and a 'Showing 1 to 3 of 3' indicator.

Note: If you are unable to amend the status (i.e clicking on the status symbol does not update) this could indicate the subscription category belongs to an organisation above you in the structure and you do not have the relevant permission to perform this action. You will need to contact your association and/or state organisation for further instructions in this instance.
