The location of the Major Sponsor and Partners logos can be seen here on the front end.

STEP 1

Click on the "Site options" link from the dashboard.

STEP 2

Click on the "Major Sponsor and Partners" tab.

STEP 3

The Major Sponsor image/logo will remain fixed next to the remaining partner logos that rotate.

By hovering over the Major Sponsor image, you have the option to edit or remove the image. Click remove and add a new image from either your media library or upload a new image.

NOTE: Please use images/logos that are 200×100 pixels to keep the logos from distorting and also so they appear in line with each other's height.
