News Article Feature Images for Slideshow

News articles that have been assigned to the "Slider" category will be pulled into the homepage news slideshow real.
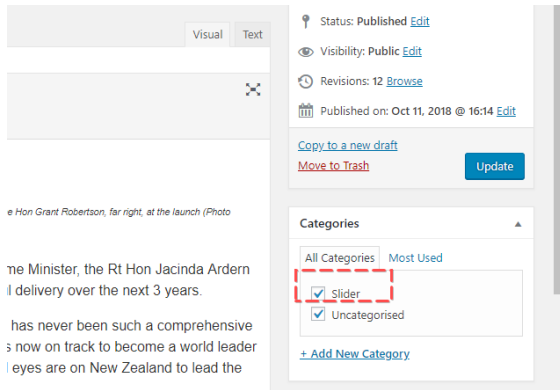

IF you have selected the "Slider box" layout for the news section on the homepage, then your feature images need to be 880x 530 pixels.

IF you have selected the full width layout for the news section then you need to upload a feature image of 2560 x 1000 pixels.

NOTE: It is important that the feature image you select for these news articles is very close to the aspect ratio (size) of specified. Otherwise the feature image will be stretched or cropped in the news slideshow on the home page.

- Please see how to add a featured image to news articles here - https://help.mygameday.app/help/adding-images-other-media
- To see how top change the news banner layout from "Slider box" or "Full Width", please see this guide https://help.mygameday.app/help/changing-your-news-banner-from-full-width-to-slider-box-on-the-homepage
