Plugins

Our GameDay 2023 theme have a few plugins that come with the theme that we can enable or disable for your organisation. These plugins come with the theme so are free to enable.

If you wish to enable another plugin outside this list, a fee will be charged to enable and manage the specific plugin you are after. Please send an email to our commerical team with the name or link to the plugin you wish to have enabled for your organisation and they can confirm what fee you will be charged for this if you wish to enable it.
