

Adding statistics to match centre widget

Last Modified on 16/12/2024 3:26 pm AEDT

1. Follow the instructions provided in the [MATCH CENTRE set up](#) to get your competitions set up first.
2. Make sure you have noted down the statistics IDs for each of your competitions which can be [found here](#).
3. Under the STATS CENTRE section within your match centre, click ADD STATS.

If you want more than one stat listed for the competition, you will have to repeat this process.

The screenshot shows a form titled 'Competition' with the following fields and options:

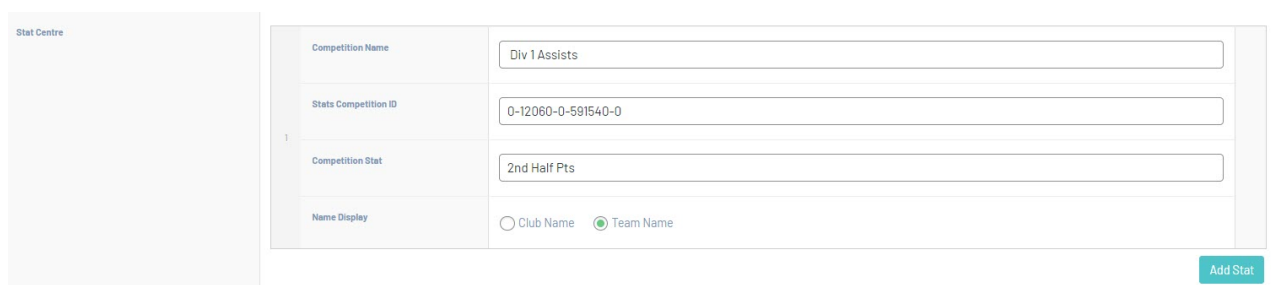

Competition Name	Courtside Competition Div 1
SportsTG Competition ID	0-12060-0-591540-0
SportsTG Competition Season ID	6019693
SportsTG Competition Ladder Columns	1,2,3,4,5
SportsTG Season	<input checked="" type="radio"/> Normal Season <input type="radio"/> Pool 1 <input type="radio"/> Pool 2 <input type="radio"/> Finals
Stat Centre	<input type="button" value="Add Stat"/>

4. Input the name of the competition into the COMPETITION NAME section - will match that of the competition name itself or can be a shorthand version e.g Div 1 Assists Leaders etc.

5. Input the STATS COMPETITION ID for the relevant statistic- this will match that of the SPORTSTG COMPETITION ID for the competition.

6. Input the COMPETITION STAT name.

7. Select whether you want the club name to be listed for the person or the team name - most use the team name.

The screenshot shows a form titled 'Stat Centre' with the following fields and options:

Competition Name	Div 1 Assists
Stats Competition ID	0-12060-0-591540-0
Competition Stat	2nd Half Pts
Name Display	<input type="radio"/> Club Name <input checked="" type="radio"/> Team Name
	<input type="button" value="Add Stat"/>

8. Repeat for any other stats under any other competitions you need this for.

9. Once done, click UPDATE at the top of the webpage.
