

Adding Free Shipping for Specific Product(s) Only

Last Modified on 16/12/2024 3:32 pm AEDT

STEP 1 - Login to your BiogCommerce Dashboard

STEP 2 - Click on Products from the Left hand menu

STEP 3 - Click on the product you want to EDIT and offer free shipping for

STEP 4 - Scroll down to SHIPPING >> DIMENSIONS & WEIGHT then CHECK on the "FREE SHIPPING" box and make sure the price is zero

The screenshot shows the product configuration interface. On the left, the 'FULFILLMENT' menu is expanded, with 'Dimensions & Weight' selected. The main content area is divided into sections: 'Shipping Details' and 'Purchasability'. In the 'Shipping Details' section, the 'Fixed Shipping Price' is set to '\$ 0', and the 'Free Shipping' checkbox is checked. In the 'Purchasability' section, the first radio button option is selected: 'This product can be purchased in my online store'.

On the front end, the customer will be offered FREE SHIPPING in the 3 checkout options.

The screenshot shows the front-end checkout process. At the top, there is a checkbox labeled 'My billing address is the same as my shipping address.' which is checked. Below this is the 'Shipping Method' section, which contains two options: 'Pickup at Club' with a price of '\$0.00' and 'Free Shipping' with a price of '\$0.00'. The 'Free Shipping' option is selected and circled in blue. Below the shipping methods is the 'Order Comments' section.

NOTE: IF other products are added to the cart and they don't have the free shipping box checked, then the free shipping option won't be available.
